

Wingding Crossword

Each clue corresponds to a phrase preceded by or followed by a number. The number for each phrase is on the crossword grid -- the phrase fits into that spot. Contiguous blocks of white space on the crossword correspond to one letter. The number phrases are:

* After filling in the crossword, find the clues with the wingdings associated with them. In the wingding chart, index into the crossword RIGHT and UP the number of spaces indicated by the matching clues (6 spaces for 6 FEET UNDER, for example) and record the letter there. Doing this for each row gives you PREMIERE.
